EDUCATION

Canara Engineering College

Bachelor of Engineering in Computer Science and Business System

Mangaluru, India

Sept. 2023 – Present

SDPT PU College

Pre-university course-PCMC

Kateel, Karnataka

Jun. 2021 – May. 2023

TECHNICAL SKILLS

Languages: C, Java, Python, SQL

Core concepts: DBMS, OOP, Data Structures (Basics)

Web Technologies: HTML, CSS

Developer Tools: Git, VS Code, Eclipse, Jupyter Notebook, MySQL

PROJECTS

Medi-Tech: AI-Powered Medical Department Prediction System (Mini Project)

Python — Flask — Machine Learning

- Built ML model using TF-IDF and Naive Bayes for symptom classification.
- Developed Flask backend for prediction and patient workflow management.
- Implemented digital prescription system with QR-based retrieval.
- Improved workflow efficiency by reducing manual triage and enhancing accuracy.

Neuro-Screen: Voice-Based Parkinson's Detection Mode

Python — Scikit-Learn — Machine Learning

- Built a diagnostic classification model using a Support Vector Machine (SVM) to detect Parkinson's disease from 22 extracted acoustic vocal features.
- Engineered a robust data preprocessing pipeline utilizing Pandas and MinMaxScaler to clean and normalize complex physiological metrics.
- Evaluated model reliability using accuracy scores and confusion matrices to critically analyze false-positive and false-negative screening rates.
- Developed an end-to-end inference script capable of formatting unseen patient data and predicting health status in real time.

ACHIEVEMENTS AND EXPERIENCE

- Participated in the Leadership Training Program for students arranged by M.R.Pai Foundation with Forum of Free Enterprise and Canara Engineering College held on 24th-25th September, 2025 in memory of the late M.R.Pai with the objective of developing good citizenship.
- Participated in Hackathon and Ideathon.

COURSES AND CERTIFICATES

- C Programming : IIT Bombay (2024)
- Python Training : IIT Bombay (2025)
- Prompt Engineering : Infosys Springboard (2026)
